

**South Simcoe United FC
Press Release – May 5th, 2010**

South Simcoe United FC (SSU) is proud to announce that, in only its third year of operation, it was one of only four soccer clubs in Ontario to be presented with the Ontario Soccer Associations (OSA) Club Excellence SILVER Award for 2010. The Silver Award is a province wide program that recognizes the development of sound administrative policies and procedures and is presented to clubs who meet established standards, and offer a safe, healthy and enjoyable environment for all participants.

This year, the OSA presented two gold, four silver and eleven bronze award winners. These seventeen join the twenty-four clubs who have previously been recognized. This is a great achievement for any club, let alone one that is only three years old and whose basis was unique in having one competitive club supported by three local house league clubs. Three other clubs in Ontario have now copied this model.

This achievement is a credit to everybody involved in SSU, the Founders, Executive team, Coaches and Managers and most importantly the Players and their Parents who bought into the concept that SSU offered three years ago.

SSU gives special thanks to the three house league partners, Alliston Soccer Club, Tottenham and District Soccer Club and Cobra's FC who have supported SSU as the place to play competitive soccer in South Simcoe.

SSU would like to thank all those in the community who have worked tirelessly to make our Club a success. We look forward to continued support as we go for Gold in our very bright future.

Raymond Ellis

President
South Simcoe United FC
